17. FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS

(a) Fair value hierarchy

The company classifies its financial instruments measured at fair value according to the Fair Value hierarchy.

The levels of the Fair Value hierarchy as defined by the accounting standards are an indication of the observability of prices or valuation input. It can be classified into the following hierarchies/levels:

- Level 1 : Active Market – quoted price

Refers to financial instruments which are regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. Such financial instruments include actively traded government securities, listed derivatives and cash products traded on an exchange.

- Level 2 : No Active Market – Valuation techniques using observable input

Refers to inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. prices) or indirectly (i.e. derived from prices).

Examples of level 2 financial instruments include corporate and other government bonds, less liquid equities and highly structured OTC derivatives.

- Level 3 : No Active Market – Valuation techniques using unobservable input

Refers to financial instruments where fair values are measured using unobservable market inputs. The valuation technique is consistent with level 2. The chosen valuation technique incorporates management's assumptions and data.

Examples of level 3 instruments include corporate bonds in illiquid markets, private equity investments and investment properties.

(b) Transfer between Level 1 and Level 2 in the fair value hierarchy

Assets and liabilities of the Company are recognised in the financial statements on a recurring basis. The Company determine whether transfers have occurred between fair value hierarchy levels by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. There were no transfers between Level 1 and Level 2 for the Company during the financial period ended 30 June 2016.
